## Insight Israel: Welcoming Global Academic and Legal Leaders

On behalf of **Ariel University** and **the Ministry for Diaspora Affairs and Combating Antisemitism**, Israel, we are pleased to extend a warm invitation to academic and legal leaders from around the world to participate in ***Insight Israel*** – an international initiative that brings together distinguished university presidents, rectors, deans, department heads, leading researchers, and legal professionals from around the world for an in-depth exploration of Israel's academic excellence, cultural richness, and dynamic society. Upcoming delegations will be held in 2026 year.

This **fully funded five-day program** offers an immersive journey into the intellectual, institutional, and cultural landscape of Israel, providing direct engagement with leading academic institutions, renowned scholars, and diverse communities. Through high-level meetings, curated site visits, and meaningful cross-cultural dialogue, the program fosters a multidimensional understanding of Israeli society – its values, challenges, and contributions to the global academic sphere.

The program includes official visits to the **Israeli Parliament (Knesset)** and **leading universities** across the country, where participants will meet with prominent scholars, legal experts, and community representatives. They will also explore cultural and historical landmarks in Jerusalem, Tel Aviv, and cities throughout northern and southern Israel. Throughout the experience, emphasis is placed on open dialogue, mutual learning, and academic exchange.

The central aim of Insight Israel is to build and sustain a vibrant global network of senior academic and legal leaders who are committed to advancing academic diplomacy, civic understanding, **the fight against antisemitism on university campuses**, and international cooperation. The program fosters long-term partnerships and meaningful engagement between institutions across continents.

Participation is **by application**, reviewed by a dedicated selection committee. Only a **brief CV (up to five pages)** is required. We warmly welcome both **nominations** and **direct applications** from qualified individuals who would benefit from this experience and contribute to the global Insight Israel community.
